## TYPHOID GROWS RAPIDLY IN SALEM

Fully 700 Cases and Others Being Reported Every Hour

Health Authorities Work Most Of Night in Stricken Town

(By Associated Press)

Alliance, O., November 10.—Many new cases of typhoid fever have developed in Salem within the past 24 hours as result of the epidemic. No deaths, however, have occurred in that time but many cases are reported as having taken a critical turn.

State and Federal authorities arrived yesterday and worked practically all of last night in an effort to alleviate the situation.

At a meeting this morning a plan will be worked out which will include a careful examination of the recently developed cases, information obtained concerning the probable source of infection and sanitary investigation of every home in Salem.

Thus far it has been impossible to check the spread of the epidemic, new cases being reported hourly from various parts of the town. It is reported the total number of cases now is approximately 700.

## PRIEST'S HOME IS DYNAMITED AT STRUTHERS

Squabble Among Members Of Church is Recalled

Front Porch is Blown Away By Blast

(By Associated Press) Struthers, O., November 10.—The parish house of Holy Trinity, Czech-Slovak Catholic church, was dynamited early today, the porch being blown off. No one was injured.

The house is occupied by Rev. John Frena, recently installed priest, against whose appointment a protest was made by members of the church who for a time maintained an armed guard to prevent his taking possession.

## PENROSE NOT GROWING WORSE

(By Associated Press) Philadelphia, November 10.—Published reports that United States Senator Penrose, who has been ill for a year, has had a relapse were denied today by one of his physicians who said there was no material change in his condition.

He is suffering from neuritis in addition to his other ills. He is making preparations to return to the Senate after an absence since last November.

## THREE RED CROSS WORKERS KILLED

## THEODORE BURTON MAY BE SPEAKER OF NEW CONGRESS

Congressman-elect Theo. Burton. Theodore Burton, former U. S. senator and now congressman-elect from the twenty-second district in Ohio, may be chosen speaker, say political leaders. Burton's knowledge of national affairs due to his experience in the senate makes him the logical man, it is said.

## SHIPPING BOARD AFFAIRS AIRED BY COMMITTEE

Allocation of Vessels to Irresponsible Comes to Light

Private Companies Favored By Those in Charge is Claim

(By Associated Press) New York, November 10.—Individuals and corporations of no financial standing and no experience in maritime affairs have been allocated United States Shipping Board vessels for operation, J. F. Richardson testified here today when the Walsh congressional committee resumed its investigation of alleged irregularities in shipping board affairs.

Richardson, who is secretary and statistician to the Walsh committee and who in this capacity conducted an investigation of facts regarding the board's operating methods, declared that irresponsible individuals were favored while established steamship companies complained of inability to secure tonnage from the government.

## FOUR KILLED BY EXPLOSION ABOARD BOAT

(By Associated Press) New York, November 10.—An explosion occurred this afternoon in the engine room of the Southern Pacific freighter El Mundo, at pier 51.

Four killed and eight injured was the toll reported by the police at 3:30 o'clock, half an hour after the blast.

## WHISKY RING LEADERS HELD UNDER \$15,000

Mike Dapike Heitler and Robt. Perlman Surrender

Chicago, November 10.—Mike Dapike Heitler, road house and saloon keeper and Robert Perlman, a saloon keeper, surrendered to Federal authorities today and were held in bond of \$15,000 each, charged with violation of the Volstead act.

Heitler, who figured prominently in the whisky ring, was accused of selling \$200,000 worth of whisky to other saloon keepers and then sending men to steal it back again.

## PLAN TO DEPORT RADICAL ALIENS

Sixty-one Reach New York Bound For Lithuania

Immigration Officials Make Another Haul of Bad Ones

(By Associated Press)

New York, November 10.—Sixty-one undesirable aliens, traveling in two special cars heavily guarded, arrived here today from Chicago and the far west and were taken to Ellis Island for deportation.

One of the deportees, Paul Mozuris, known to the Ellis Island authorities as a desperate radical, escaped from the immigration station last June by leaping out of a window and swimming ashore. He was found in Kalamazoo. Because of his defiant attitude when questioned concerning the Wall Street explosion Mozuris will not hastily be deported to Lithuania but will be held for further examination.

## COAL MINES UNDER SCRANTON STREETS MAKE TRAFFIC UNSAFE

Truckload of coal which caved through pavement, above, and falling houses caused by coal mines under Scranton streets.

Coal mines which are being dug under streets of Scranton, Pa., are causing many accidents and are dangerous to traffic.

Falling houses and caved-in walls are to be found on many of the streets and nothing has been done to help the residents. The photographs shows a coal truck which sank right through the pavement which was insecurely grouped up.

## SAYS FARMER MUST HAVE BETTER PAY

Grange Warns Nation-Wide Selling Organizations Planned

Would Fix Prices of Farm Produce to Insure Better Pay

Time For Action Has Come Is Warning by Grange Leader

(By Associated Press) Boston, Mass., November 10.—The establishment of "Nation wide selling organizations which shall fix the price of farm products" if the "farmer does not receive the same pay for the same hours work that others receive" was predicted today by Sherman J. Lowell, of Fredonia, New York, master of the National Grange of the Patrons of Husbandry, in opening the annual convention of the grange.

"We are willing to have a fair understanding of values, the farmers receiving the same pay for the same hours work that others receive, no more, no less, but we feel this is the last call," he said. "If no attention is paid to this now by bankers, manufacturers, railroads and labor organizations and if the government continues to use its great power to import raw materials free of duty to reduce costs, then the grange will be the first to organize nation wide selling organizations which shall fix the price of farm products. There is no threat in this; we will have been driven to it in self defense."

"This condition is repugnant to us all. We desire no class regulations or class divisions; we desire to labor for humanity and to be able to keep the earth fertile, always bringing forth its harvest sufficient to feed the increasing millions of our people. It is no small task and it can only be safely done by a proper appreciation."

## HERMANN INSISTS PEACE IS IN SIGHT

## TIES COW CHAIN ABOUT MAN'S NECK

Youngstown, O., November 10.—(Associated Press) When Frank Bobs remonstrated with Anthony D. Annevitch for pasturing his cow on Bobs' land, Annevitch knocked Bobs down with the cow chain, tied the chain around his neck and chased the cow, according to information lodged with police today by Bobs, who said he was dragged 200 feet. Annevitch was jailed on an assault charge.

## SIMS FAILED TO GET AWARD FOR HIS WORK

(By Associated Press) Newport, R. I.—Announcement by the War College today of awards for notable naval service during the war contained no mention of honor for Admiral William Sims, president of the college, who was commander of the American naval forces in the war zone.

Admiral Sims had refused an original recommendation for a distinguished service medal as a protest against the failure of the Navy Department to accept his recommendations for subordinates.

## CLAIM DAKOTA REJECTED DRY ACT SUBMITTED

(By Associated Press) Huron, S. D., November 10.—The South Dakota Direct Legislation Organization in a statement issued today declared returns from county auditors showed that the prohibitory law submitted to the people to strengthen prohibition in this state was defeated by a majority of more than 10,000 last Tuesday.

The statement declared South Dakota was the first to repudiate the bone dry prohibition idea and search and seizure in private homes.

## CUT PRICES

## TYPHOON STRIKES VESSEL 48 LOST

Forty Persons Escape Death When Coastwise Vessel Sinks

Was Struck by Storm Off The Philippine Islands.

(By Associated Press)

Manila, P. I., November 10.—Forty-eight persons are believed to have perished when the coast-wise steamer Basilie was struck by a typhoon last Wednesday enroute to Puerto Belo, Leyte Island, South Philippines, according to a survivor reaching here today.

Forty survivors reached Cebu.

News of the disaster was brought here today by Concordia Eardo, a survivor, picked up by the steamer Samal, after drifting four days in an open boat.

## CAR SHORTAGE NEARS AN END IS CLAIM MADE

Transportation Was Near Break Down as Result of Strike

Inter-State Commerce Commissioner Warns Against Let-up

(By Associated Press) Washington, November 10.—The back of the car shortage has been broken Clyde B. Aitchison, of the Interstate Commerce Commission, declared today before the national convention of Association of Railway and Utilities Commissions.

As a result "of the efforts of railroad operators and employees with assistance of the shippers and under the policy laid down by the commission," he said, "we are now facing a possibility of a surplus of equipment."

He declared the general public never knew "how close the rail and water transportation came to a complete cessation to functioning in the industrial heart of the country as result of the strike starting in April and continuing into midsummer."

The present financial situation coupled with the downward trend of construction costs makes it seem prudent not to engage upon any undue or avoidable construction program until conditions become more normal, and seemingly there can be no letting down in the operation of existing equipment to its maximum, he said.

## OHIO FARMERS REFUSE TO SELL ON LOW MARKET

(By Associated Press) Columbus, November 9.—Ohio farmers are refusing to sell their corn at present under present market conditions. S. B. Swope, of Fairfield and a number of other speakers who discussed the corn situation declared here today at the fall convention of the Ohio Grain Dealers Association. None indicated that the movement was organized as the wheat holding organization in Kansas.

### OHIO CORN CROP NOT SO GREAT AS 1919 CROP

However Yield Is Thirteen Million Bushels Above Average Crop In Ohio.

Other Crops Rank High and Potato Production Is Above Average.

The farmers of Ohio have harvested a corn crop of 154,105,000 bushels this year, based on an average yield of 42.5 bushels per acre, 85 per cent of which is reported will probably be of merchantable quality, compared to 162,000,000 bushels a year ago, and a 10-year average of 141,000,000 bushels according to the state-federal crop re-

port issued by the Co-operative Crop Reporting Bureau of the Ohio and United States Departments of Agriculture. Report further shows that 91 per cent of the crop was matured without frost injury. 11 per cent of the total acreage was cut for silos, the average yield of which was reported to be about 8 tons. Unless the number of feeder stock is considerably increased, there will be a material increase in the marketable surplus this year. Reports indicate an increasing demand for stock to feed.

**POTATOES**—The final return on potato production shows some improvement over the production estimated a month ago. The total production is now estimated at 14,523,000 bushels based on an average yield of 103 bushels per acre, compared to 9,300,000 bushels a year ago and a ten-year average of 13,000,000 bushels. Late blight has been unusually prevalent throughout the state this year and has been one of the important causes of keeping down the yield.

**TOBACCO**—The total production of tobacco in the state is estimated at 73,440,000 pounds, based on an average yield of 960 pounds per acre, compared to 77,400,000 pounds last year. The crop was harvested entirely without frost damage and is reported to have a quality of 91 per cent.

**APPLES**—The total apple crop is estimated at 13,193,000 bushels compared to 2,806,000 bushels a year ago. The total commercial crop, or in other words, that crop which enters commercial channels, is estimated at 1,303,000 barrels, compared to 264,000 barrels a year ago.

**BUCKWHEAT**—The total buckwheat crop in the state is estimated at 520,000 bushels, based on an average yield of 26 bushels per acre, compared to 621,000 bushels a year ago, and a ten year average of 431,000 bushels. The fine weather during October permitted the farmers to harvest and thresh this crop without injury and the quality is high being reported at 94 per cent.

**FRUIT**—The grape crop is estimated at 92 per cent of normal, with a quality of 94 per cent while pears are estimated at 92 per cent of a normal crop of 662,100 bushels compared to 218,000 bushels a year ago.

**SORGHUM**—The sorghum crop was injured to some extent by drought in the southern counties but the yield is fair, many fields yielding 100 gallons per acre. The average for the state is estimated at 91 gallons per acre, or a total production of 536,000 gallons.

**SUGAR BEETS**—Sugar beets are reported at a condition of 96 per cent of normal.

**CLOVER SEED**—The total estimated production 160,000 bushels compared to 160,000 bushels a year ago. Of the total acres of clover seed cut for seed 82 per cent is reported to be red clover and balance mostly alsike.

## Does Your Husband Come Home Tired, Nervous, Irritable?

Physician Says Thousands Of Men Are Breaking Down Simply Because Their Blood Lacks Iron—Tells How To Convince A Husband That He Needs

### NUXATED IRON

To Help Make Red Blood, Strength and Endurance

"Simply because his blood lacks iron, many an American husband who ought to be feeling young, full of health, vigor and energy and in a position to shower his family with every comfort and luxury is actually struggling to make ends meet—a disappointed and discouraged 'old' man who will probably end up in a nervous breakdown or be carried off by his first illness," says Dr. H. B. Vail, formerly physician in the Baltimore Hospital and a Medical Examiner.

"Because man, in the rush and tear of modern life has so little time to think about his own condition and is often so slow to admit any weakness, the signs that his blood may be low in iron are often first detected by the watchful, loving eyes of his wife. Does your husband come home pale and fagged out and too tired to do anything or go anywhere? Does he complain about being overworked—the lack of opportunity to do anything? Does he seem unable for concentration or another to get ahead and make big money as you and he once confidently expected?"

"Then it may well be true that his blood lacks iron, for the men with plenty of iron in their blood are the healthy, strong ones with the keen minds and the physical energy and stamina to overcome all obstacles—make their own opportunities—and force their way to big positions, power and wealth. My advice to the wife who believes her husband capable of big things in this world is to see that he builds up the iron in his blood and for this purpose I have found nothing better than organic iron—Nuxated Iron. By enriching the blood, creating new blood cells, it strengthens the nerves, rebuilds weakened tissues, and helps install new

energy and endurance in the whole system. Nuxated Iron is used by over 4,000,000 people annually—used and endorsed by former United States Senators and Members of Congress in many cases to my knowledge, increase the strength and energy and endurance of run-down, nervous people in two weeks' time.

MANUFACTURER'S NOTE: Nuxated Iron, which is recommended above is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older iron compounds it is easily assimilated and does not irritate the stomach, make them black, nor upset the stomach. Each tablet or capsule Nuxated Iron is stamped as follows: "Nuxated Iron" and the words Nuxated Iron are stamped into each bottle, so that the public may not be led into accepting inferior substitutes. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists in tablet form only.

**DOUGHNUTS!** There is nothing more wholesome and delightful than doughnuts or crullers rightly made.

**Doughnuts**  
3 tablespoons shortening  
1/2 cup sugar  
1 egg  
1/2 cup milk  
1 teaspoon nutmeg  
1 teaspoon salt  
8 cups flour  
4 teaspoons Royal Baking Powder

Cream shortening, add sugar and well-beaten eggs; stir in milk; add nutmeg, salt, flour and baking powder which have been sifted together and enough additional flour to make dough stiff enough to roll. Roll out on floured board to about 1/2-inch thick; cut out. Fry in deep fat hot enough to brown a piece of bread in 30 seconds. Drain on unglazed paper and sprinkle with powdered sugar.

**Crullers**  
4 tablespoons shortening  
1 cup sugar  
2 eggs  
3 cups flour  
1 teaspoon cinnamon  
1/2 teaspoon salt  
4 teaspoons Royal Baking Powder  
1/2 cup milk

Cream shortening; add sugar gradually and beat in eggs; add cinnamon, salt and baking powder; add milk and mix well; add milk and remainder of dry ingredients to make soft dough. Roll out on floured board to about 1/4-inch thick and cut into strips about 4 inches long and 1/2-inch wide; roll in hands and twist each strip and bring ends together. Fry in deep hot fat. ### NOW PLATTING NEW ADDITION FOR CEMETERY

Grading Work Well Under Way On Tract Purchased Several Years Ago.

Shrubbery Will Be Planted And Addition Properly Beautified.

The eleven acre tract of land on the west side of the Washington cemetery purchased several years ago for enlarging the cemetery, is at last being platted for burial purposes, that portion next to the cemetery and highway being selected for the first grading work.

Two thousand to three thousand feet of driveways have been opened up and the grading is under way, while the gravel and crushed stone for the drives will be applied later.

Lots are being staked off and other steps necessary to opening addition will follow.

Within a short time the work of planting shrubbery and beautifying tract as it should be will receive attention, and within a year or two the tract probably will be opened for burials.

### O.S.U. STADIUM RALLY IS HELD BY OLD GRADS

Dr. Thompson Delivers Address Before Ohio State Alumni in Interests of Great Stadium.

Fayette's Goal Is Set At \$5,000 for Former State Students.

Starting the movement among Ohio State University alumni of Fayette county to raise their share of stadium funds thirty graduates met Dr. William Oakley Thompson, President of the Ohio State University, at the Cherry Hotel Tuesday evening.

After an informal "dutch treat" dinner at six o'clock the meeting was called to order by Chairman Howard Hogler and an address of stirring appeal for the proposed stadium was given by Dr. Thompson.

In taking up the question of raising the million dollars which will be expended in the great stadium Dr. Thompson declared that the alumni should bear in mind that the stadium will not only be used for athletics but that such things as a reunion of World War veterans and Spanish American War veterans, reunions of alumni and such features of everyday life would find it for their use.

He called special notice to the fact that the students of Ohio State University must have a place to hold their required exercises and that the stadium would be the ideal place. He declared that the proposed stadium was one of the greatest projects ever set before the people of Ohio and that their support was needed to make it a reality.

In closing he stated that Fayette county's quota for Ohio State alumni was \$5000 and that friends of the university were included and that any subscriptions out side the organization of former students would be most gladly received.

The Fayette organization is expected to raise its quota by the day after Thanksgiving.

Dr. Donald Cays, of the Animal Husbandry Department, also delivered

ed an address in which he called attention to the proposed idea of holding livestock shows in the stadium. He was enthusiastic in voicing this idea and also declared that the interest in athletics, one of the big features of college life and one which helps keep the school young in the minds of the students, was only one of the many reasons why the proposed stadium should be erected.

Dr. French, of the Mechanical Drawing Department of Ohio State University was the third speaker of the evening and in a few words he stated his reasons for supporting the stadium movement.

He asserted that the school required the stadium as a place for exercises for the on-coming generation and that it must not be overlooked that athletics had become one of the features of college and everyday life.

He stated that such counties as Pike, Lucas and Montgomery had already subscribed their quotas and that Fayette must not hesitate.

Subscription cards were passed out before the meeting closed and there

was every assurance that Fayette county will not lag behind in "going over the top" in the stadium drive.

### MAYFLOWER FALLS UPON THE STAGE DURING A PLAY

(By Associated Press)

London, (By Mail)—Twentieth-century Pilgrim Fathers have hardships of their own. Last night while Ben Greet players were lustily singing from the poop deck of a stage reproduction of the Mayflower at the Surrey theater, stage properties gave way, the ship heeled, crashed toward the audience and precipitated the hapless Pilgrims to the stage amid sails, masts and splintered woodwork.

After anxious moments it was determined that no broken bones had resulted from the unhistorical presentation. Thus assured the notable gathering of first nighters, including American diplomatic officials and influential Anglo-Americans, were prepared for the humor of the situation and the rise of the curtain on the second act—the Pilgrim Fathers offering thanks for their safe voyage across the Atlantic. London critics say the audience could hardly be blamed for bursting into laughter.

## Women Jurors

Women began to realize with the recent election that the privilege of franchise carried with it other duties beside merely marking and placing a ballot in the ballot box. It was quite a shock to a number to find that they were liable to the same legal status as the men and could be summoned to act officially as judge or clerk in the election booths. But far more imperative than the duties attendant upon the election is the summons to jury duty and women may expect to be called to serve in the capacity of jurors with slight hope of being excused.

While to some women the idea of jury duty will be exceedingly distasteful and even almost unbearable, to the average woman it is simply one more thing to be done—probably not the thing which she would best like to do; probably attended with anxious qualms, at least at the initiation, but the duty is assigned to her and she does it as best she may.

Recently the first jury in New Jersey was impaneled—twelve women—and court attendants praised them for attention to testimony and continued alertness throughout the trial. According to experienced court observers the fact that the forewoman wore a charming blue and taupe hat and the other jurors were in attractive feminine garb did not seem to affect their mental reactions to the evidence.

There might have been a slight shock when each juror was shorn of her title, "Miss or Mrs.," and summoned by her name without prefix, but no intimation was given that it was a thing out of the ordinary.

It is a safe statement to say that ninety-nine out of a hundred women hope that their name will not be drawn from the jury box, but if it is drawn will conscientiously do the necessary part to measure up to the new responsibility.

## The Shadow of Christmas

Coming events cast their shadows! Especially in the approach of Christmas.

No other holiday requires the same thought; no other holiday arouses the same interest, the same uncertainty and pleasurable anticipation.

To make of Christmas the beautiful season of affection and thoughtfulness for others to which the significance of the day entitles it, requires more than a few days of hurried shopping. To give the personal touch to the gift, to choose the desired bit of jewelry, the handkerchiefs daintily appropriate, the right book, the favorite stationery or the article wanted for the toilet, the table or the home, is an art and can only be accomplished by giving time and thought to the tastes and wishes for whom it is chosen.

So after all it is none too soon to think of the Christmas shopping—none too soon if the selection is to be carefully made and purchased while stocks are at their best.

The shadow of the 1920 Christmas ought to be one eagerly heralded, with so much of sadness relegated to the past and the future offering so much of gladness.

## Safe-Guard The Water Supply

The town of Salem, not far from Youngstown, in Columbiana county, now in the throes of a frightful typhoid fever epidemic, affords an object lesson which no town or city should fail to profit by.

In this town of 10,000 people, hundreds of citizens are ill, many of them seriously ill, there have been half a score of deaths and other ailments of kindred nature are developing. The disease is spreading; a hundred and fifty nurses and as many physicians as could be secured have been rushed to Salem; the grim spectre of death stalks through the streets. And all these deaths—this suffering and anxiety—said to be caused by contaminated water.

Every city's water supply should be safe-guarded beyond any possibility of danger. Testing cannot be too frequent. Health authorities cannot be too careful in making investigations and protecting the community from the menace of impure water.

Of similar importance is a city's sewerage system. The full toll in deaths and disease taken by bad water and bad sewerage will never be known, but latter day knowledge permits of no excuse for such negligence.

## POETRY FOR TODAY

### OLD MEMORIES

As the evening shades gather and soft shadows creep,  
Old memories steal o'er me, tender and sweet.  
Backwards I turn, I follow the trail of memory, as lightly she draws back the veil;  
I see every vista as lightly I go,  
Down through the valley of sweet long ago.  
With fond play of affection I feel her soft breath  
As fondly she clasps me again to her breast.

'Tis then that I hark to old memories' call,  
When the evening shades softly gather,  
And list to her tales of far-away day  
When we traveled along together;  
Sweet fancy bewitching, bright dream of youth,  
Turn o'er again the leaves of thy book,  
Hold me a captive 'neath thy loved spell,  
Or let me forever in thy bright presence dwell.

## ARTICLE TEN OF LEAGUE IS NOW REGARDED DEAD

Harding Invites Leaders of Both Parties to Take Counsel

Dominant Principal of Proposed Association of Nations Is a Court With Power

BY MARK SULLIVAN  
(Copyright 1920)

Washington, November 19.—Senator Harding has already begun the process of inviting responsible and well equipped leaders of thought from both parties to confer about the precise form which the American variation of the League of Nations should take and what should be the first step toward bringing it about.

That this should have been the first thing and the only thing done by Senator Harding before taking his vacation illustrates both his appreciation of the urgency of this problem and also his concern to live up strictly to his campaign obligation, frequently repeated in his speeches, to make this subject the first burden of his thought immediately after his election.

Aside from what Senator Harding is doing, other steps, less known to the public, are being taken by leaders in European thought looking to the same end.

Article X Regarded as Dead  
Whatever the outcome of new deliberations about the League of Nations, the one certain thing is that Article X is dead.

Article X was the point of the contest and the dividing line between the League that Wilson would have and the League that the Republicans would not have, the number of persons who stood with Wilson on this point being small. Not many leaders in the Democratic party stood with him, and of these the major part did so as a matter of party discipline and loyalty to their leader rather than as a matter of conviction.

Not even many statesmen in Europe stood with Wilson on this point. This is a fact not widely understood in America. Article X was Wilson's own pet child, and he forced it on the European statesmen quite as much against their will as he tried to force it on the American senate.

Article X never really belonged in the League of Nations. Mr. Elihu Root was well within the truth when he said in the only speech he delivered during the campaign that Article X "was a provision standing by itself quite outside of the League for the preservation of peace and forming no part of the scheme, but creating independently of it a hard and fast alliance between the members of the league to preserve in perpetuity the territorial and political status quo. Article X was no part of the main scheme of the League of Nations. I go further and assert that Article X is inconsistent with the purpose and spirit of the league."

That this theory of Senator Root's about Article X is correct can be proved readily by a history of that particular section. It arose separately from the rest of the Covenant and was originally devised by President Wilson for a wholly different purpose. However, the genealogy of Article X can await a separate article. It is no longer important, anyhow. Article X is dead.

To Change Underlying Principle  
Assuming that the will of the Republicans leaders is to prevail about the League of Nations—and in the light of the result of the election no one can doubt that the will of the Republican leaders is to prevail—not only is Article X dead but that underlying principle of the League, which resided especially in Article X and appeared in several other articles is also dead.

The precise distinction between this principle which underlies the league of nations and the contrasting principle which the Republican leaders want to substitute for it is not easy to make simple. It is very clear to lawyers, once it is brought to their attention; but it is less easy to make clear to the layman. It will be necessary to carry on a considerable campaign of education to make this distinction clear.

Briefly and very incompletely the dominant principle in the Association of Nations which the Republicans have in mind is that there shall be a court which shall function as every court does, under codified laws and under the restraints of precedents. The dominating institution in the Association of Nations which the Republicans have in mind will be this court. The dominating institution in the League of Nations, as it now exists, is the Council and the Assembly of the League. The intention of the Republican leaders is that the Council and

Assembly of the League shall be deprived of all real power; and if they continue to exist at all, they will be restrained to a capacity which will be clearly and definitely advisory only.

### Will Have Power

Although the new plan contemplates taking power away from the Council and the assembly of the League, it is by no means intended that the new Association of Nations shall be without power. In fact the Republican plan proposes to give more real power to the new Association of Nations than the present league has. But that power will be restricted in two ways.

In the first place, the power will be confined wholly as a court, which court shall not be free to act as it pleases but must act as courts must according to a codification of international law. It is true that international law is nowhere codified now. In the sense that legislative statutes are codified; but nevertheless there are principles of international law which are well understood by every one familiar with the subject. It is part of the Republican plan to bring this body of international law into a formal code, which code shall govern the court of the new Association of Nations.

Also, the court will be governed, as every court is by precedent. In both these ways the power which the new court is to possess will be restricted. The new court will not be free, as the Council and the Assembly of the League are free, to act on each case according to the expediency of the moment and according to whatever might happen to be the political necessities of the case.

Not only will the new court be restricted in this way. In addition, the field in which this court can function will be carefully confined and limited. Certain subjects, like immigration, will be specifically excluded from its jurisdiction, and will remain, as they now are, subjects in which each nation will continue to be a law unto itself.

The distinction between a body of men acting as diplomats in the Council of the League and a body of men acting as a court may not be readily clear to laymen, although every lawyer will recognize it instantly. But that difference is almost literally all the difference in this world.

There should be an American campaign of education to make this difference clear. Many of our people as a result of all the acrimonious discussion, have come to be suspicious of every detail of the League. It will be necessary to make clear to them how great is the difference between the principle of the League which America has rejected, and the principle of the alternative which in due course will be submitted to us.

You can't save much time by stopping your watch.

If Your Blood is Weak and Clogged  
with Poisons, Pepto-Mangan Will  
Strengthen and Purify it.

When you get over-tired day after day your system has to get rid of so much waste it can't create new energy fast enough. The result is that your blood is filled with waste matter. It becomes clogged. You are trying to get around with a lot of poison in your system.

You look bad, you feel poorly. You get out of patience easily. Ambition is lost. You just don't care about anything.

That is no way to live. Your blood needs help for a time. It is starved. You will find help in that fine tonic, Pepto-Mangan. Pepto-Mangan purifies the blood and fills it with red corpuscles. In a little while you'll have plenty of rich, red blood and you won't know yourself. It isn't a magic medicine. It contains iron and other ingredients that feed starved blood and make it rich and red. Physicians have prescribed Pepto-Mangan for years.

Pepto-Mangan is sold in liquid and tablet form. Take either kind you prefer. One acts the same as the other. Both contain the same ingredients. But be sure to get the genuine Pepto-Mangan—Gude's. The full name "Gude's Pepto-Mangan," should be on the package.—Advertisement.

## GREAT EXCITEMENT PREVAILS AMONG THE IRISH PEOPLE

(By Associated Press)

Cork, (By Mail)—A state of excitement, which is difficult for Americans and Englishmen to appreciate unless experienced, prevails in Cork and throughout Ireland.

The following can be given as an illustration: As the Associated Press correspondent was passing the general postoffice the other day a motor truck filled with soldiers and police, with rifles at ready, dashed in the main entrance. Several of them descended and entered the postoffice, one police man holding a revolver pointing him self in the doorway.

This was nothing more than the posting of military mails, the elaborate precautions taken being due to a daring exploit recently when the government mail bag was snatched from a soldier as he was leaving the postoffice. The bag was not recovered.

## RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

The Browning Club held its regular meeting, Tuesday evening at the Federated Club room with the President, Mrs. Dahl, in the chair.

After the reading of the minutes, and other business was taken up, the meeting was turned over to Mrs. C. A. Teeters, chairman of the Social Science and Philanthropy department who had charge of the following program.

The first paper was a most excellent one written by Mrs. F. M. Fullerton. As Mrs. Fullerton could not be present her paper was splendidly read by her daughter, Miss Dorothy.

The subject was, "The Problems and Projects of Americanization," she said in part that Americanization begins in the home. Teach your children to love their country, honor its flag, cherish the ideals of our forefathers—respect the rights and property of others. Let all teaching be upon such standards as these:

1. "No private gain at the expense of others."

2. "The necessity of sound family life."

3. "That race prejudice is harmful."

4. "Not my country right or wrong, but my country always in harmony with the principles of justice."

Americanization should extend to the original American—the Indian. By patiently and sympathetically building upon and modifying the Indian culture and bridging in this way the chasm between the Indian civilization and ours we may do much toward making them real Americans. Americanization of the negro places a burden upon the whole nation—North and South. He is our ward. He did not come to us voluntarily. The task of Americanizing our mountaineer people is to advance them from the 18th and 19th century to the 20th intellectually, agriculturally and domestically.

Americanization can never be a cold calculating process of the time. It must spring from hearts filled with love for men. There is no way that we can make any one feel that it is a blessed and splendid thing to be an American unless, we ourselves are aglow with the sacred fire—unless we interpret Americanism by our kindness, our generosity, our fairness.

"Belgium's Fighting Cardinal" was the subject of Mrs. Anna Bush Coffman's paper, which had been carefully prepared. "Cardinal Mercier is known to the whole of Belgium as the living Saint. Whatever he does for his people he puts into it every fiber of his great heart. He is a descendant of one of the typical Belgian families and the people of his country found him at all times a wise counselor and a safe guide. On Christmas day 1914 he spoke openly to his people telling them it was their duty to serve liberty and justice and to protect their people. But to the Germans he said, 'You are invaders, we but tolerate you.' Because of his attitude he was told that he should cease his Pastoral but he did not keep silent. He was the spokesman for his country and the authority of his utterances awakened the chivalry of America."

The last paper was a most interesting one by Miss Goldie Blaghn the subject of which was—"Character

sketches of George W. Perkins and Emil Vanderveide."

"George Perkins gave us the idea of a college education and entered the school of practical experience and at 40 years of age had gained all the honors that can be gained from that school. At the age of 15 he entered the Chicago office of the New York Life Insurance Co. He learned every phase of the insurance business. He was successively, and successfully office boy, book-keeper, cashier, inspector of agencies in Rocky Mountain district, superintendent of agencies of the agency force and vice-president of the company. He worked abroad establishing the insurance business in every civilized country of the world. Mr. Perkins believed the world of business was built on men, money and machinery."

He made money, at one time receiving \$75,000, but the greater part of his energy was devoted to making men and improving the lot of humanity.

He was one of the first men, associated with a big business, to advocate profit-sharing, sick benefits, old age pension and stock purchasing by employees. When Roosevelt was president he appointed Mr. Perkins, president of an unpaid commission to secure property along the Palisades of the Hudson River for a park. He believed that recreation helps to fashion good citizenship, and he applied this theory in the development of this park.

After retiring from active business life he was a member of 25 non-business societies and associations interested in the public welfare.

Emil Vanderveide is a Belgium socialist. To him Belgium owes the reorganization of its greatest electoral reform movement.

The decided popularity of the jitney dance idea as shown on election night has prompted the committee of the American Legion to celebrate Armistice Day in the same manner, Thursday night.

The Winter Garden Trio has been obtained to furnish music, which combined with a dance floor that is almost perfect, promises an evening of real pleasure to dance lovers.

Dayton club women were fortunate in having with them during the week of November 1. Miss Jessie Ackerman, who has made eight trips around the globe making a study of the condition of women especially in the industrial life of the various countries. A luncheon was given at the Woman's Club. Miss Ackerman talked of what women had accomplished as citizens and at a luncheon given by the officers of the Gen City Federation she told of her trip to Iceland. She also spoke to the Woman's Literary club and the Mistrus Club, entertaining with a description of how for more than a year she had earned her living in the slums of London.

Professor Griggs, Ohio State University scientist, who explored the district known as "The Valley of Ten Thousand Smokes," will address the Columbus Women's Club at the Hotel Deshler, Columbus, Nov. 11.

The life of the Youngstown Federa-

tion of Women's Clubs has extended more than a period of fourteen years. Members feel that their time has come for increased opportunity of public service in the welfare of their city. That will be their paramount aim for the year's work. The Youngstown federation has a membership of 2,000. A room on the second floor of the public library has been secured for downtown headquarters and a secretary employed.

An exceptionally good program of American music was presented to the Cecilians, who were out in full number for Tuesday afternoon's meeting.

The club enjoyed an exceptional pleasure in hearing Mrs. Walter Meek of Denver, Colo. in the lovely song "Who'll Buy My Lavender"—Edward German and Ballad. "An Even Song," given as a response to an encore. The club was charmed with her glorious voice and the opportunity of hearing her in concert Friday night at the First Presbyterian Church is eagerly anticipated. Mrs. Selsor Fenner accompanied the singer.

Miss Marie Sims.

Washington society is congratulating Mr. Edward Garret Kiddick, son of Mr. T. K. Kiddick of Memphis, Tenn., upon winning the hand of Miss Marie Sims, daughter of Representative and Mrs. Thomas W. Sims. Miss Sims is one of the most popular of the girls who have been presented to Washington society. She recently returned from several months' visit in England and Switzerland. No date has been set for the wedding.

B. Robinson of Dayton, and Mr. Otto J. Anderson, of Chicago, Ills., were week end guests of Mr. and Mrs. J. A. Johnson and granddaughters, Misses Harriette and Elizabeth Allen.

Mrs. F. A. DeLong and little son Billy of Columbus are spending the week with friends and relatives here.

Mrs. Walter E. Hutton of Frankfort is spending the week end with her mother, Mrs. John A. Paul, while Mr. Hutton is on a business trip.

## WILL REPLACE TWO HYDRANTS

As a result of a recent inspection of the "fire plugs" in this city, two defective hydrants were found and are being replaced by The Washington Water Company.

One of these plugs was at the intersection of Columbus avenue and Delaware street and the other opposite The Washington Milling Company on South Fayette street. Their condition was such that only replacement with new hydrants would be regarded as satisfactory.

A number of other hydrants were found to be in need of repairs and will be given attention by the water company.

Inspections by the water company are provided for every six months.

## INFANT DAUGHTER CALLED BY DEATH

Mr. and Mrs. Charles B. Mathews on North North street have the sympathy of their friends in the death of their sixteen months old infant daughter Helen, which occurred Tuesday afternoon at half past three o'clock at the home, after an illness of several days.

Three other children survive, Hazel, Guy and Edgar.

Funeral services will be held Thursday afternoon at two o'clock and burial will follow in Washington cemetery.

## DENTAL INSPECTION HAS BEEN COMPLETED

The regular dental inspection in the public schools of this city, underway since Monday, was completed Tuesday with every dentist in the city taking a hand in the work.

As each inspection is held, it is said the improved condition of the children's teeth in the lower grades and in the high school is noticeable.

A complete report will be compiled within the next few days.

## HUNTERS FINED FOR VIOLATIONS

Game Protector Frank Hard has made several arrests in this part of Ohio during the past few days, one man drawing \$25 and costs for killing squirrels and others for killing rabbits.

The game protector makes unexpected trips into various parts of the rural district and also follows tips which lead to arrests.

## FUNERAL SERVICES MR. LOTEN CHAFFIN

Relatives and many friends gathered at the First Presbyterian church Tuesday afternoon for the funeral services of Mr. Loten Chaffin.

Rev. K. B. Alexander, of Grace M. E. Church, conducted an impressive service assisted by Rev. Floyd Gale of the M. P. Church.

A trio of singers, Mrs. Ernest W. Harvey, Mrs. Arthur Burgett and Mr. R. R. Kibler sang beautifully "Oh Love That Will Not Let Me Go" and "Mercy." Mrs. B. E. Davis the organist.

The memoir was an eloquent tribute written by Mr. H. D. Chaffin, the only brother now living.

Rev. Alexander spoke of the chords of divine love, drawing us upward as kite strings when the kite is behind the clouds. Every blade of grass, every flower, every tree grows upward. A water lily coming from the deep earth beneath the water makes its way to the surface where it bursts into bloom. Every loved one going into the beyond means that a new silver thread is binding anew those left on earth to the spirit world.

The burial was made in the family lot of the Washington cemetery—the pallbearers, Messrs. Noah Baughn, Milton Coll, J. P. Bush, Ed Fultz, N. B. Hall, J. J. Williams.

There was a great profusion of beautiful flowers.

Relatives here for the services from a distance were Mr. and Mrs. H. D. Chaffin, Mr. and Mrs. Stanley Chaffin, Mr. Guy Chaffin and family of Columbus; Mr. Otto Chaffin, of Montgomery, Ala.; Mr. Lee Chaffin, of Jacksonville, Tenn.

## WILMINGTONIANS HERE ON BUSINESS

A committee headed by Thurman Miller, editor of the Wilmington News, with the other two members composed of former Wilmingtonians, G. M. Rice, furniture dealer, and Al Bonecutter, clothier, came to this city on Wednesday afternoon for the purpose of obtaining facts relating to the system used by the Fayette Credit Bureau.

The three men consulted with the founder of the Bureau, M. E. Hitchcock; former manager Postmaster G. B. Rodgers, and present manager Geo. H. Hitchcock.

A credit organization similar to the Fayette Bureau is to be organized in Wilmington in the near future, according to present plans.

## BUY FORD CAR FOR SHERIFF

The County Commissioners have purchased a Ford touring car for the use of the Sheriff, and expect to eliminate heavy charges for automobile hire in the future by providing the county's own car. A saving of \$500 to \$600 yearly is anticipated.

Heretofore when it was necessary to call a machine into service one was obtained at considerable expense.

## NOTICE

A popular and artistic program by Mrs. Myrtle Stearns Farquhar, reader, assisted by Mrs. Florence T. Meek soprano, Mrs. Lillie G. Davis organist and Mrs. Ruth Reid Fenner accompanist at Presbyterian church Friday night at 8:00 o'clock.

## WILL MAKE EFFORT TO COLLECT OLD STREET ASSESSMENTS

At the next meeting of the city council, according to present plans of some of the councilmen, some definite step will be made to force payment of thousands of dollars in overdue street and sidewalk assessments.

Time after time council has started such action, and time after time it has fallen down in the hands of various attorneys, so that the present officials are planning to again take up the project and endeavor to find some way of reaching those who failed to pay back assessments.

## NOTIFY PARENTS THAT SON'S BODY IS ON WAY HOME

Mr. and Mrs. David Summers of New Martinsburg have received word that the body of their son, Private Howard Summers, who lost his life in France, was shipped from New York City Tuesday at 12:20 o'clock and that it could be expected to arrive in this city on the 3:30 B. & O. Wednesday afternoon.

Undertaker McCoy had been advised to meet the body and take it to his establishment on Court street and later to the home of the parents.

## DITCH ORDERED SOLD DECEMBER 6

The Sullivan Joint County Ditch Tuesday was ordered sold, the assessments having been taken up, passed upon prior to the sale being ordered. The ditch is to be sold December 7th, and the estimated cost is \$7545.

# CHARGE GRAFT IN SHIP BUILDING

Corruption On Large Scale  
Charged To Officers And  
Workers.

(By Associated Press)  
Washington, November 9.—Corruption of employees and officials of the Shipping Board Emergency Fleet Corporation, graft in purchasing supplies for and repairing ships, and the use of political or other influence in obtaining contracts for ship construction and the allocation of completed vessels to operating companies are among a maze of charges made in a report submitted to the house committee on shipping board operations by A. M. Fisher, and J. F. Richardson, former employees of the board.  
Chairman Benson of the board refused tonight to discuss the report declaring any statement he might make would be made to the house committee which is now continuing its investigation.

# GRAIN PRICES ARE LOWEST IN FOUR YEARS

Chicago, November 9.—Lowest prices in four years prevailed today for all options of wheat, corn and oats on the Chicago board of trade. The new prices represented declines of six to seven cents for wheat and two or three for corn and oats under yesterday's prices.  
Wheat was 33 to 39 cents lower today than a week ago and corn quotations were less than one-half what they were six months ago.  
The December option in wheat closed at \$1.77 to \$1.78. December, corn 78c and December oats 49c.

# WILSON ORDERS RECENT VISITS BE RETURNED

Washington, November 9.—President Wilson formally announced tonight that he had directed Secretary Colby of the state department "on my behalf and in my stead" to visit Brazil and Uruguay in acknowledgement of recent visits to this country of the presidents of those two republics.  
In addition he said he would be gratified if Mr. Colby could visit Buenos Ayres in response to the invitation from the Argentine government.

## LAWYER SAYS LEAGUE CANNOT HOLD PLAYERS

(By Associated Press)  
Chicago, November 9.—The American league has no power to hold the players on the three clubs which have joined the new national league and every man on these clubs can play on in the organization next year according to an opinion of Alfred Austrian, Attorney for the two Chicago Major League Clubs and adviser in drafting the Lasker plan.  
The new national league is preparing for extensive court actions and expects numerous injunction from the various five league clubs according to representatives of the new organization.

## GERMAN TEXTILE CONCERNS HAVE GREATEST YEAR

Berlin, Germany.—Ten large German textile concerns earned larger profits for the year ended April, 1920, than in the best years before the war.  
One Bremen concern increased its profits as compared with last year from 4,499,000 marks to 16,800,000 marks. Including shares allotted gratis to the shareholders, the dividend paid is 62 percent.  
A cotton company increased its profits from 2,000,000 to 9,700,000 marks.  
Of the other companies the minimum dividend is 16 percent and there are several dividends exceeding 30 and one exceeding 40 percent.  
The profits are due to the big price rise of last winter. All finished goods put on the market during the winter were priced on the basis of the price of raw cotton at time of their sale, and as raw cotton rapidly advanced in price the public was charged seven hundred percent more than the actual production cost.

## QUAINT CUSTOM STILL FOLLOWED BY DUTCH PEOPLE

THE HAGUE, Netherlands.—The Dutch people cling to the pageantry that surrounds the movements of their Queen on state occasions though sturdy democrats in their business life. The opening of the Dutch parliament exemplified this.  
This parliament opening is a quaint old ceremony. The Queen rides in a gilded carriage through the streets of the Hague to the old Knights Hall in Parliament Square and, with her crown on her head and her gold-braided Prince consort at her side sits on her throne for once each year.  
At this ceremony the Dutch cabinet ministers are compelled by tradition to wear giddy uniforms resembling an old time minstrel man in an admiral's hat. For some reason this tradition decreed that the ministers on this solemn occasion must wear long white duck trousers which contrast strangely with their tremendous black, gold and orange hats shaped like an inverted gravy dish.

**CHOLERA SPREAD  
VERY EXTENSIVE**  
New York.—As a result of the frequent movements of Chinese troops in Szechuan Province, West China, cholera has been spread more extensively recently than in the last 20 years. This is the opinion of Professor Daniel S. Dye, of West China University, expressed in a letter to Rev. W. R. Taylor, a representative of the American Baptist Foreign Mission Society in China, now on furlough here.  
The disease has caused great ravages in Tunchuan, Chungking and Chungtu as well as many of the smaller villages. American and European are virtually immune, Professor said, due largely to the unusually precautions observed by them in the preparation of food and in the matter of hygiene on a diet.  
The first graduates of the university medical school, who recently received their diplomas, are serving as internes in hospitals in the province.  
Professor Dye was formerly a member of the faculty of the University of Wisconsin. He is a native of New Matamoras, Ohio.

## SQUATTERS OCCUPY FAMOUS GARDENS

Vienna (By Mail).—Squatters have taken possession of the famous Lainz-Tiergarten on the outskirts of Vienna and where was once the royal stags and wild boars fattened on rich meadows and under splendid oaks, huts are being erected and ground broken for crops.  
The procedure of occupation was symptomatic of present conditions in Austria. Some months ago a group of men, mostly war invalids, formally demanded this park from the government, giving notice that if their demands were not met within a certain period they would take possession. The demand was ignored by the authorities, so a few days ago the period expired and several hundred men marched quietly to the entrance and

demanding admission. The keepers swung open the gates, the men entered and staked out their claims, placing a model hut in one of the open grassed spaces as a symbol of possession.  
It is said that 1700 families will take up the claims.

## CONGESTION ON BALKAN ROADS BREAKS RECORD

Bucharest, Rumania.—(By Mail).—If Americans feel that their subways, railways and trolley cars are crowded conditions in Rumania and other parts of the Balkans are worse. Railroad traffic today in Rumania is so great that passengers ride on the roofs of every train by the hundreds. When the tops of the trains are so crowded that they can hold no more, the passengers cling to the running boards, ride on the bumpers, and even on the under framework of the car. The fare is the same whether the passenger rides in a compartment or on the roof of the car. Accidents are frequent. Often when a train has entered a tunnel a number of passengers have been swept off the roof to their death.

The congested traffic is due to the small number of locomotives and coaches available and to insufficient trackage. Most of the country's rolling stock was carried off by the Germans or destroyed. Some of the locomotives and cars have been replaced but the number is far from adequate. A large American locomotive concern has contracted to send a number of engines here, taking in payment a quantity to oil.

There are at present less than 3,000 locomotives in Rumania, including the newly acquired provinces of Transylvania and Bessarabia. About half of this number are in order. Most of them are of German or Hungarian construction. There is such a shortage of passenger coaches that box cars often are used for the conveyance of the public.

## VON HINDENBURG TALKS TO PEOPLE

Hanover, Germany, (By Mail).—Field Marshal von Hindenburg, speaking at a demonstration of students on the occasion of his 73rd birthday, said:

"The times are hard. We cannot get away from that. But it is a man's duty to look danger in the eye

and discount it. God has not yet forsaken the German people. Much has been taken from us, but God will give it back to us again. One thing is left us—our Fatherland. To that fatherland we shall cling without respect for party divisions. I make this appeal to the German youths."

# GOES 70 MILES TO GET TANLAC FOR HIS MOTHER

Son Says She Gained Seventeen Pounds By Taking It And Her Wonderful Improvement Is The Talk Of The Neighborhood.

"It's no wonder that everybody sees a change in mother since she began taking Tanlac; for she has gained seventeen pounds and can get about better than for the last twenty-five years," recently declared T. E. Ellis, well-known live-stock dealer, living at Ramsey, Ky.

"My mother is now sixty-eight years old and for eight years had suffered from loss of appetite, nervousness, constant head aches, severe pains in the chest and back and frequent spells of dizziness. She became so bad off about five years ago that she had to give up all housework, and spent most of her time in bed. During all that time she neither knew what it was to have a well day or a night's rest, and her condition became so alarming that we never expected to

see her up and about again. "One day she read in the papers about someone who had been greatly helped by Tanlac, and nothing would satisfy her until she had tried it herself. So I drove 25 miles to Evansville and got her a bottle. She's had four more bottles since then and she has actually gained seventeen pounds in weight, and its years since I saw her looking so well. She praises Tanlac all day long, and her remarkable recovery has made such a stir around Ramsey that scores of other sick people have been taking Tanlac with splendid results. I make a trip to Evansville every week and always carry back a load of Tanlac for the neighbors. We all think there is no medicine like it, and I'm glad of this chance of telling everybody about what it did for my mother."

Tanlac is sold in Washington by C. S. Haver, in Lowell by Mason's Drug Store, in Jeffersonville by J. B. Davis, in Oeta by I. W. Murphy and in Milledgeville, E. L. Ford Sons, Lee Ortmann, Seiden. — Advt.

## MEASUREMENTS DETERMINE AMOUNTS WOMEN PAY TO CAMPAIGN FUND IN N. Y.

Mrs. Ada Jacobs, largest contributor, at left, and Miss Eileen Mulqueen, the smallest contributor. Congressman Marvin Healy is holding the tape lines.

Members of the Cayuga Democratic club, New York, invented a novel way to raise campaign funds. Each one of the members of the club, a woman's organization, was asked to contribute according to the size of her waist—one dollar for every inch. Prominent men of the Democratic party in New York were asked to measure the members. They were assessed so much per waist for the privilege.

Congress to formulate the policy and laws to deal with the new situation and current events of our national life for the ensuing four years, beginning March 4, 1921.

"Without any partisan thought we all can now extend sincere good-will and best wishes for a successful and advantageous reconstruction and readjustment of our national and international affairs, a stabilizing and steady-ing of our broad economic national activities at home.

"The United States has passed in its history through three great periods: the revolution of 1776, in which we obtained our national independence; the civil war of 1861, which made us all a nation of freemen, swept away all sectional differences and cemented us to gether for ever in a strong, united nation; and last our participation in the recent great World War.

"The three great epochs were written in pages of blood, and our last splendid service to the world, in saving it from imperial despotism for democracy, is a service recognized and highly appreciated throughout the world.

## FOR BURNING ECZEMA

Apply Zemo the Clean, Antiseptic Liquid—Easy to Use—Does Not Stain

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c. or \$1.00 for large size, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

In skin troubles, ordinary soaps are irritating and liable to aggravate the condition. Use Zemo soap. It is antiseptic, soothing and hastens the process of healing.

## GRANDMOTHER KNEW

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister. Mustardole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin. Gently massage Mustardole in with the finger-tips. See how quickly it brings relief—the pain disappears. Use Mustardole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

ROLL CALL PLANS  
TAKE DEFINITE  
SHAPE TUESDAY

Public Schools, Farm Bureau, American Legion And Fraternities to Carry Out Enrollment.

Sub-committees Being Organized Under Four Chairmen.

At the second meeting of committees within the last two days held at the Y. M. C. A. building Tuesday evening plans of the Fayette County Red Cross Chapter for conducting the Fourth Roll Call took definite shape with the appointment of chairman who will take charge of the various departments.

It was decided that the best policy to pursue in shaping the Roll Call towards a successful termination would be to present the opportunity to the citizens of Fayette county to join through the four farthest reaching organizations of the county.

The Fayette County Farm Bureau will take active part in the Roll Call, it was stated by L. H. Goddard, spokesman for the Bureau at the meeting.

Superintendent William McClain pledged the support of the city public schools and the pupils in grades and high school will assist in the Roll Call.

The American Legion was represented at the meeting by Roy A. Sharp, Commander of the Paul H. Hughey Post, and this organization, representing the ex-service men of Fayette county will lend their support to the Roll Call.

Fraternities will be lined up by Clarence N. Baer and he also pledged the support of the business men of this city.

Sub-committees are being organized and the work will be carried to every point in the county through loyal and earnest co-operation with the Red Cross headquarters.

Stop this Waste of  
High Priced Fuel

Do you know that the average stove shoots 50 to 75% of its heat up the chimney? It's a fact. Heating engineers will tell you so.

Here's a stove that's different. It makes your fuel do double duty—extracts a greater percentage of heat from the fuel and throws it out into the room. This heater is the

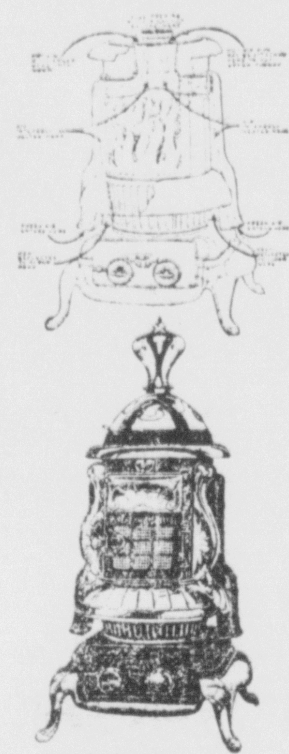

## Estate Hot Storm

—the Stove with a "Little Furnace" in it.

It's more than a stove—it's a stove and furnace combined. Gives two kinds of heat—direct radiation and warm air circulation.

Note the pipes on each side—fresh air goes in at the bottom—warm air comes out at the top. Constant circulation of warm air that will heat several rooms. Burns any kind of fuel. Gives you furnace comfort at a fraction of the usual cost.

Come in and see this wonderful stove.
